OAKLAND RACES.

Palo Alto Wins a Good Race in Three Straight Heats.

OAKLAND, September 2d.—The Golden Gate Fair Association commenced its twelfth annual meeting this afternoon. A large crowd was in attendance, thereby presenting a decided contrast to the late afternoon attendance at the fair.

A special boat was run from the ferries at 12:30, and nearly every prominent horseman in the city crossed the bay to witness the races.

The race is one especially good feature about the races, and that is why they commence at 1 o'clock. People can accordingly witness an afternoon's sport without being present at the races.

The two races set down on this afternoon's programme were the 2:20 and the 2:27 class.

The starters in the 2:20 class were Franklin, 1st; Bay Victor, Palo Alto, Don Tomas, and Bay Eclipse.

Before the first heat few pools were sold. Palo Alto sold freely at \$30 and the field at \$13.

The horses scored badly before the first heat, and finally got off with a very fast start. In fact it was obvious that the drivers of Franklin and Jim L. were unaware that it was a start, for they were left way in the rear, and several seconds elapsed before the horses in front of a start were made.

The Stockton and Victor led with Palo Alto second and Don Tomas third.

At the half Palo Alto led, but at the turn broke badly. Victor then came up and led for a short time, with Palo Alto second.

The race was over in 2:20, and the field was 1:45. In the stretch Palo Alto led the whole way, winning by three lengths with Bay Rose second and Victor third. Jim L. was third. Time, 2:22.

The judges were G. S. Crittenden, Sam Gamble and Judge Green.

Before the second heat Palo Alto sold at \$30 and the field at \$12.

After three false starts Victor got off in the lead, but broke away at the quarter pole. Bay Rose second and Don Tomas third.

At the half and three quarters the Stockton and Victor led with Palo Alto third.

At the turn Victor led with Palo Alto second and Don Tomas third.

At the half Palo Alto led, but at the turn broke badly. Victor then came up and led for a short time, with Palo Alto second.

The race was over in 2:20, and the field was 1:45. In the stretch Palo Alto led the whole way, winning by three lengths with Bay Rose second and Victor third. Jim L. was third. Time, 2:22.

The third heat resulted in favor of Palo Alto, who won in a big race. Franklin second. Time, 2:19. Palo Alto could have made the lead in 2:17 if H. Marvin had not easily scored. Stapleton.

four miles north of Athlone. He was not missed until that station was reached. The train men went back and found him very badly bound but no bones broken.

He was bound in a most infamously common, one occurring about every night last week. "Doc" Hensley, proprietor of the City Stables, was the last victim. It is reported that a burglar entered the house at 3 o'clock Saturday evening and realized \$10.50 by his venture. The money was in Hensley's pants pocket in his bed room.

Yolo Maid, Gold Leaf, Adonis and other fast horses have been entered for the race, which gives promise of the race being the best race meeting ever held in Fresno county.

Water Belding was convicted on Tuesday last on a charge of arson and sentenced to 10 years by Judge Harris to Folsom for eight years (a motion for a new trial was denied).

The Mail Carriers free delivery system delivered during August 17,257 letters and 2,200 packages, 1,000 of which were 1456 postals. The service does not cover nearly all of the city. It is estimated that 50,000 letters are handled in the office during the month.

A number of San Francisco capitalists, who bought Fresno county lands, are unable to "unload" so as to get out even, will plant raisin grapes next spring.

THEY GET RATTLED.

And That is How the Stockton Was Beaten by the San Franciscans.

SAN FRANCISCO, September 2d.—The Stockton and home nine played the game postponed from May 5th, which was stopped by rain. It was a hard-fighting contest, and had some excellent fielding in the early stages of the game, and their errors allowed runs, which, in the end proved to be winning ones. Whitehead missed the first, and Farley set up the first in the fifth. The two races set down on this afternoon's programme were the 2:20 and the 2:27 class.

The starters in the 2:20 class were Franklin, 1st; Bay Victor, Palo Alto, Don Tomas, and Bay Eclipse.

Before the first heat few pools were sold. Palo Alto sold freely at \$30 and the field at \$13.

The horses scored badly before the first heat, and finally got off with a very fast start. The third heat resulted in favor of Palo Alto, who won in a big race. Franklin second. Time, 2:19. Palo Alto could have made the lead in 2:17 if H. Marvin had not easily scored. Stapleton.

PLACER COUNTY.

Opening of the Auburn Fair—Forest Hill Stage Robbed.

AUBURN, September 2d.—The first fair of the Twentieth Agricultural Association opened to-day. The opening address was delivered by General Jo' Hamilton this evening.

A pulling contest between draft teams took place at the park.

Our little hall is crowded and the over-flow is placed in Betton's Hall.

The first exhibit is superb. All the departments will be placed to-morrow, and will represent thousands of dollars in specimens.

The fair grounds are neatly arranged and have some nice stock. The fair continues till Friday.

The first exhibit is superb. All the departments will be placed to-morrow, and will represent thousands of dollars in specimens.

Another Fair.

ANOTHER FAIR.

The fair grounds are neatly arranged and have some nice stock. The fair continues till Friday.

SEALS and Their Young.

In an article upon the seals of the Labrador coast, E. L. Wakeman says: "The young are brought forth on vast floating ice in March. The whale seals are born with their eyes open, and change to a soft, silvery brown, and they nest upon their frozen beds of ice as soon as they are suckled by their mothers. When from five to six weeks old they can exist in water. They then begin following their mothers about, much after the manner of human babies, for their attention and the food of fish which they most dutifully procure for them. They are then fed by their mothers, and when they are a week old they are able to catch the most active and powerful fish of these waters, save the shark; and we have the testimony of Captain Deschamps that instances have been known where battles between the food-hunting mother and these rapacious ruffians of the deep resulted in the defeat and death of the latter.

They then begin following their mothers about, much after the manner of human babies, for their attention and the food of fish which they most dutifully procure for them. They are then fed by their mothers, and when they are a week old they are able to catch the most active and powerful fish of these waters, save the shark; and we have the testimony of Captain Deschamps that instances have been known where battles between the food-hunting mother and these rapacious ruffians of the deep resulted in the defeat and death of the latter.
